## U.S. Department of Homeland Security National Biodefense Analysis and Countermeasures Center

### “Pillars of the National Biodefense Program

- **Threat Awareness**
- **Prevention and Protection**
- **Surveillance and Detection**
- **Response and Recovery”**

- Presidential Directive, *Biodefense for the 21st Century*,  
April 2004

#### VISION

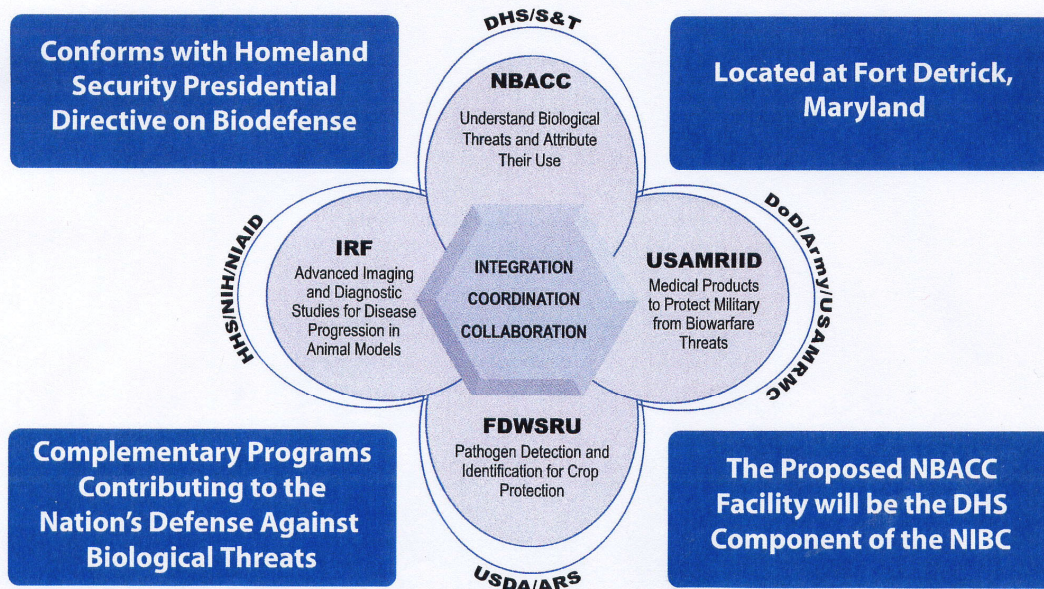

Provide the nation with the scientific basis for awareness of biological threats and attribution of their use against the American public

#### Goals

- Understand current and future biological threats, assess vulnerabilities, and determine potential impacts to guide the development of biodefense countermeasures
- Provide national capability to conduct forensic analysis of evidence from bio-crimes and terrorism to attain a “biological fingerprint” to identify perpetrators and determine the origin and method of attack

## BIOLOGICAL DEFENSE OF THE NATION

### National Interagency Biodefense Campus (NIBC)

## U.S. Department of Homeland Security Biological Threat Characterization Center (BTCC)

A Component of the National Biodefense Analysis and Countermeasures Center (NBACC)

“We are building the flexibility and speed to characterize . . . [biological] agents, assess existing defenses, and rapidly develop safe and effective countermeasures.”

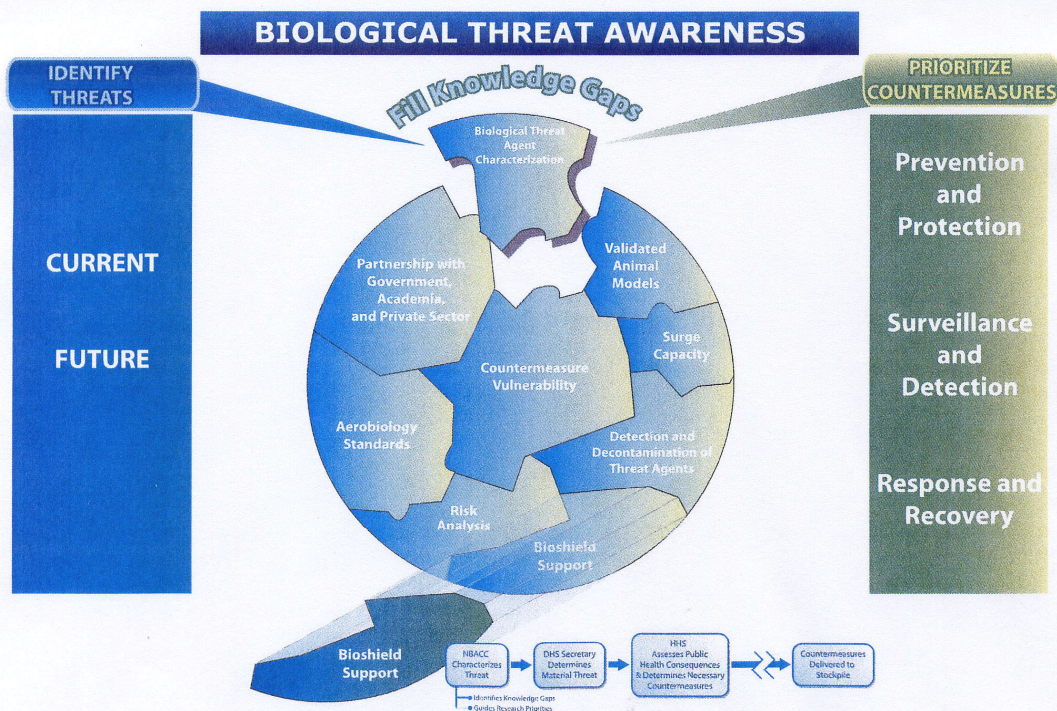

- Presidential Directive, *Biodefense for the 21st Century*,  
April 2004

### GOAL

Understand current and future biological threats, assess vulnerabilities, and determine potential impacts to guide the development of countermeasures, such as detectors, drugs, vaccines, and decontamination technologies

### Objectives

- Implement systematic biothreat risk analysis methodology
- Targeted laboratory analysis of high-consequence pathogens to fill information gaps
- Assess countermeasure vulnerabilities
- Develop and validate animal models
- Develop aerobiology standards
- Partner with other government agencies to prioritize research and countermeasure development, including Bioshield investments
- Provide surge capability / capacity to support incident operations

## U.S. Department of Homeland Security National Bioforensic Analysis Center (NBFAC)

A Component of the National Biodefense Analysis and Countermeasures Center (NBACC)

NBFAC is “the lead Federal facility to conduct and facilitate the technical forensic analysis and interpretation of materials recovered following a biological attack in support of the appropriate lead Federal agency.”

- Presidential Directive, *Biodefense for the 21st Century*,  
April 2004

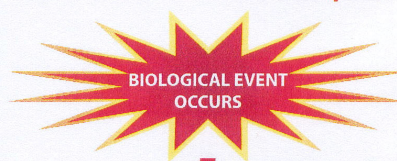

### GOAL

Provide national capability to conduct forensic analysis of evidence from bio-crimes and terrorism to attain a “biological fingerprint” to identify perpetrators and determine the origin and method of attack

### Objectives

- Develop, evaluate, and validate analytical tools and procedures to support bioforensic casework
- Conduct bioforensic research and casework
- Evaluate, validate, and establish methods to identify biological threat agents
- Establish bioforensic reference collections for comparative identification
- Establish a program to achieve national standards for bioforensic casework

### Bio-crime or Terrorism Response

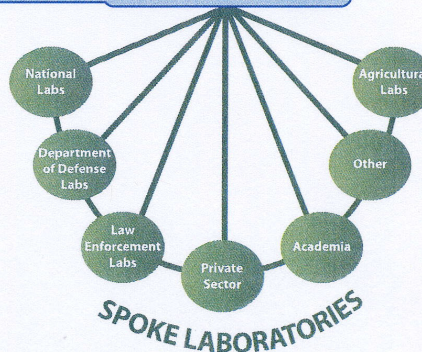

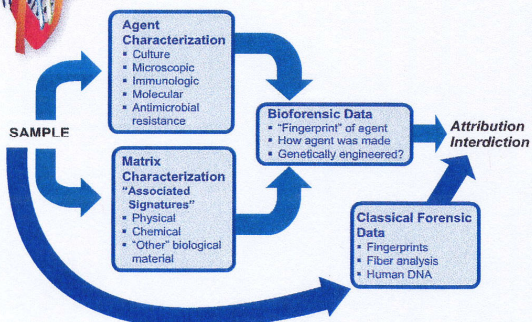

Lead Federal Agency  
Responds and  
Collects Evidence

Lead Federal Facility  
- NBFAC -  
Conducts Technical  
Analysis for Attribution

### “Biological Fingerprints”

Technical Analysis for Attribution
